

## 6. RANGE STANDARDS

**6.1 Firing Line** - The range for pistol competitions shall have a firing line. The shooting distances shall be measured from the face of the competition target to the firing line (that point beyond which no part of the competitor's body may touch the ground). Such line will be clearly marked.

**6.2 Firing Point** - That part of the range provided for the competitor from which firing takes place. The firing points shall be so constructed that they do not obstruct or disturb the competitor's shooting or obstruct the activities of the Range Officers.

### 6.3 Blank

**6.4 Distance** - The shooting distances must be strictly adhered to. At Registered competitions outdoors the distances required are 7, 10, 15, 25, 35, and 50 yards or meters. Competition fired indoors requiring the AP-1 target will be fired at distances of 7, 10, and 15 yards. Indoor competition requiring the AP-2 target will be fired at distances of 25, 35, and 50 feet. (See Section 10)

**6.5 Illumination** - Artificial Illumination of ranges is authorized.

### 6.6 - 6.8 Blank

**6.6.1 Multiple Target Set-Up Procedure** - Multiple set-ups for allowing more than one competitor at a time to fire a match must, if the range exceeds twenty-seven and one-half yards, have each competitor's target or target group distinguished by a unique number clearly visible from the firing line.

**6.8.2 Target Equipment** - Any target system is permitted so long as it guarantees the:

- (a) Necessary degree of safety and the accurate and rapid scoring of the shot-holes on the competition targets.
- (b) In case of automatic target carriers or changers being used, the competitor may control the changing of his own targets, or the competitor may leave this to the scorer.

### 6.9 - 6.11 Blank

**6.12 Spectator Area** - There may be space provided for the spectators. The spectator area must be separated from the competitors and officials by a suitable barrier.
